

Herts & Essex Planning

www.hertsessexplanning.com

Project Overview

Herts & Essex Planning is a joint venture of like minded self-employed professionals. They cater for initial consultation, discussing design ideas, creation of planning drawings, Building Regulations and dealing with the application process.

The approach

Create a distinguish colour scheme (different than the usual blue colour that is used for the industry).
The letters H and E from the name are used as a structure to support a roof.
I also used the logo to create a set of icons for the web platform (this was a request from the client).

Services

Colour scheme (the client request was any colour but blue).
Logo.
Web design - coming soon (the current website is built for SEO purposes only).

Colour Palette

CTAs

Typography

h1. Herts & Essex

h2. Planning

h3. New Builds

h4. Karla font

We cater to all your drawing needs from Permitted Development drawings, Planning Applications, Building Regulation drawings and dealing with the application process on your behalf.
We provide a simple to understand service at a very competitive price.
