

Photomontage

Acorn CCS - Peterhead Max Case.

## Project Overview

The client provided 2D plans of proposals in PDF, existing site area in DWG for AutoCAD and an aerial view photo with low resolution.

A 3D model wasn't available. I used the PDF files to trace and build a basic 3D model including a basic 3D terrain model. The client provided the heights.

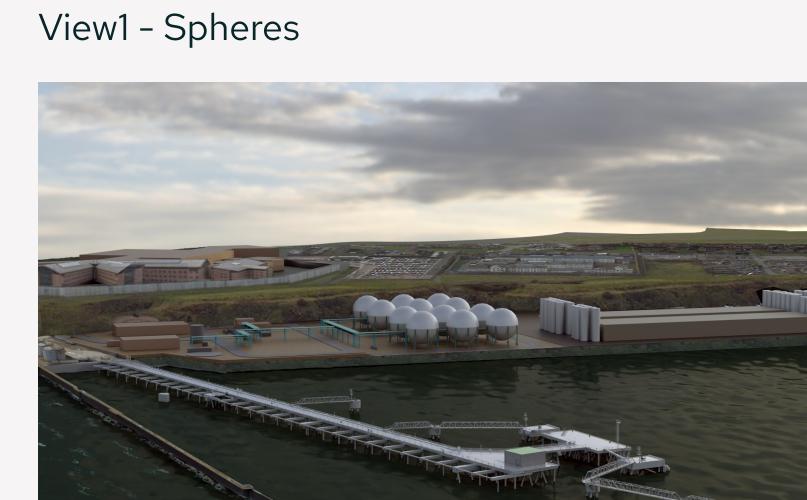

## Project goals

To create a photomontage for communicating the shape and scale of the Peterhead Max case.

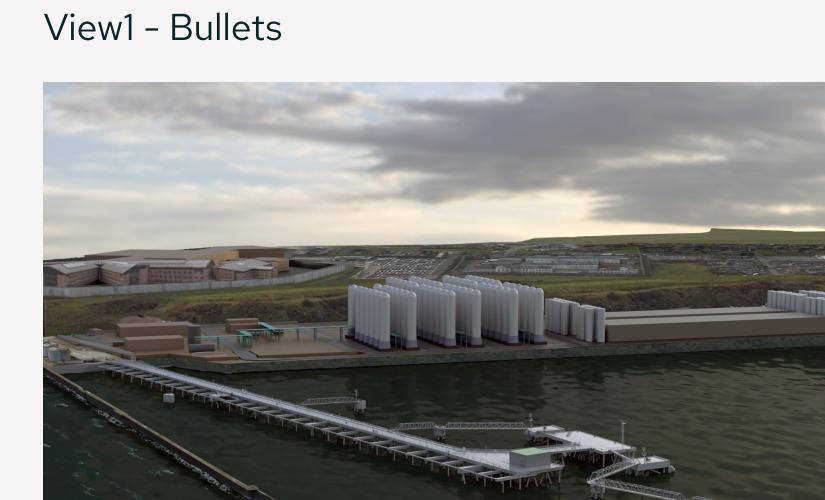

## Service

Photomontage 4 images.

## Final Images
